

President's Council

The President's Council was formed to help fulfill the mission and advance the conservation work of the National Wildlife Federation. The Council is a select group of NWF supporters who are also leaders in such fields as business, law, science, media and philanthropy. Its members share a passion for saving and restoring wildlife and wild places, as well as an affinity for NWF's brand of com-

mon-sense conservation. Functions of the Council include developing a strong network of advocates and supporters to help NWF secure the resources needed to achieve its conservation goals, acting as advisors to the president of NWF on conservation and other issues, and serving as ambassadors for conservation in their own communities and circles of friends and associates.
