

Make your own photo frame with Ranger Rick! Here's how:

1. Print your photograph to fit inside this 4"x6" frame.
2. Use the dotted lines to cut along the inside and outside of the frame.
3. Turn the frame over and tape your photo to the back.
(Be sure the picture is facing away from you as you tape.)
4. Hang it up on a bulletin board, refrigerator or another special place!
