

TIME LAPSE

“Backyard Hummers” (pages 18-21 in the April 2009 issue of *Ranger Rick*) shows photos of baby hummingbirds as they hatch and grow up. Find something you can observe over time, such as a tree growing its leaves, a flower blooming, or a spider web being spun. Visit regularly and watch how it changes. Each time, write a description and take a photo or make a sketch. You’ll need a copy of this page for each visit.
