

MEET THE CONIFERS

Conifers are trees with cones. There are many kinds, and they grow almost everywhere. Why not see which ones grow near you?

Date: _____ Time: _____

Location: _____

Weather: _____

Helpful Things to Take Along:

- ✓ Field guide to trees
- ✓ Magnifying glass
- ✓ Crayons or markers

Go outside and find two different conifers you'd like to meet, and record your observations about them below. Draw each tree in one of the boxes. Give it a name if you like—either its scientific name or one you make up. Then write down some of the things that make it different from other trees.
