

TREES FOR WILDLIFE

Tree Kits Order Form

TREES FOR WILDLIFE is a national educational program providing families, schools, and communities with fun, hands-on opportunities to plant trees. All trees provided through this program are planted in the United States and are native species that help protect and restore the wild places that nurture wildlife. For additional information on our program please visit our website www.nwf.org/trees.

We are so excited that you want to plant trees and help wildlife and the environment! To ensure that your tree planting is a success, for you and for wildlife, please complete this form and review all information carefully.

Tree **orders must be placed at least 15 days prior to event date**; however, the order can be placed well in advance as long as planting date and planting location is determined. Our program ships *potted tree seedlings* (12-24" tall in 3" pot) and *bare root tree seedlings* (6"-12" tall) directly to you approximately 3 days prior to your event. Shipping and handling is included in the price. Delivery of accessory items (i.e. patches, adoption certificates, guides) takes approximately 2 weeks from the date of purchase. Guide documents are sent to you via email in PDF format with links to download them. We recommend using the *Tree Planting Guide* to help you organize your event. This Guide offers step by step instructions to ensure that your trees will grow and thrive.

Please send completed order forms to trees@nwf.org or mail to **National Wildlife Federation – Trees for Wildlife 11100 Wildlife Center Drive, Reston, VA 20190**. If you have any other questions call **703-438-6500** or email to trees@nwf.org.

Purchaser: _____ Ship To: _____

Ship to Address (no PO Boxes, must be residential): _____
