

# Biodiversity Action Plan

What is the problem/issue needing improvement and why is it a problem/in need of improvement?

How is it hurting or bothering people, the school and/or the environment?

What action(s) will we take?

How will we persuade people at school to change current practices in order to solve the problem/make improvements?

How will we check our progress to see how are we doing?

What will it look like or what will happen if we solve the problem/make improvements?

What materials do we need to solve our problem-reach our goal(s)?

Do we have them at school? Will we need any money? Where can we find donations?
