

# Project WET & Aquatic WILD Workshop

**Aquatic WILD** uses the simple, successful format of Project WILD activities and professional training workshops, emphasizing aquatic wildlife and aquatic ecology.

**Project WET** is correlated to the Common Core Standards and NGSS, and gives K-12 educators tools needed to integrate water education into every school subject. The guide also includes numerous extensions for using the activities in Pre-K environments.

**During this workshop**, participants will receive both K-12 for Project WET and Aquatic WILD educational guides. Workshop is open to formal and non-formal educators, scout leaders, home school parents, staff/volunteers of nature centers, zoos, or aquariums.

**APRIL 29, 2023**

9:00am - 3:30pm

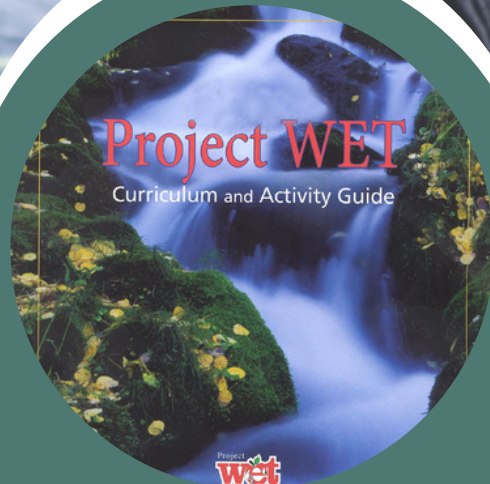

**Montana Fish Wildlife & Parks Department**  
3201 Spurgin Rd, Missoula, MT 59804

**Register required & space is limited**
