

HAPPY FEET TWO

In Theaters
November 18, 2011

Mumble, The Master of Tap, has a problem because his tiny son, Erik, is choreo-phobic. Reluctant to dance, Erik runs away and encounters The Mighty Sven—a penguin who can fly! Mumble has no hope of competing with this charismatic new role model.

But things get worse when the world is shaken by powerful forces.

Erik learns of his father's "guts and grit" as Mumble brings together the penguin nations and all manner of fabulous creatures—from tiny krill to giant elephant seals—to put things right.

National Wildlife Federation has teamed up with *Happy Feet Two* to encourage people of all ages to take the steps necessary to protect amazing wildlife species such as penguins and wild places such as Antarctica.

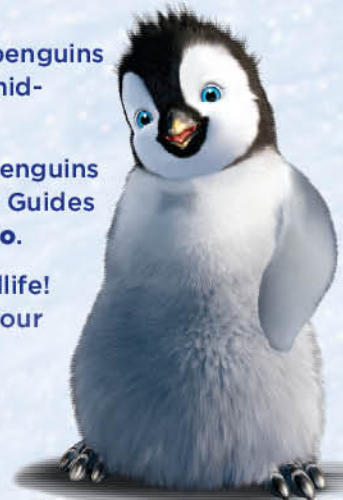

SIMPLE STEPS YOU CAN TAKE TO FIGHT CLIMATE CHANGE AND SAVE PENGUINS, PUFFINS AND OTHER SEABIRDS!

- Unplug three electronic devices (TV, computer, stereo) when not in use.
- Take reusable bags when you go shopping.
- Walk, bike, carpool and use mass transit whenever you can.
- Replace old light bulbs with energy-saving compact fluorescents.
- Learn more at www.nwf.org/energy.

DID YOU KNOW? Adélie penguins such as Ramon are the smallest of the Antarctic penguins. When it's winter in the United States, it's summer in Antarctica. That means it's time for penguins to come ashore and raise their families!

-  You can keep track of nesting Adélie penguins and their chicks from mid-November to mid-January at www.penguinscience.com.
-  Get more fun facts and activities about penguins and download free Family Fun and Educator Guides for the movie at www.nwf.org/happyfeettwo.
-  Help the National Wildlife Federation help wildlife! Go to www.nwf.org/everystepcounts to add your voice to the cause.
