

Sample Transportation Action Plan

What is the issue?	What action will we take?	Who will do it?	When will it be done?	How will we monitor progress?	How will we know if we succeeded?	What will it cost?
Lots of students and staff drive to school in cars	Research alternative options (carpooling, public transit, walking, etc.) and publish report in school newspaper	Eco-Action Team	Report published October 1 Survey finished by November 15	Survey students and staff	20% students and/or staff report using alternative transportation	Nothing
Very few students walk to school	Figure out if we can apply for state "Safe Routes to School" funding to make safety improvements	Principal	December	Create a timeline and checklist of steps to apply for a grant	We get a grant	Nothing
	Organize a Walk-to-School day in spring	Mrs. Bennett's class	May	Keep a list of participants and conduct a survey afterward	Over 50% of the school participates	\$200 for marketing and t-shirts (find a business sponsor?)
Cars and buses pollute the air by idling near school	Run an anti-idling campaign	After-School Environment Club	June	Survey drivers about idling before and after the campaign	Administration implements anti-idling policy	\$100 to print anti-idling posters

Prepared by the National Wildlife Federation as part of the Eco-Schools USA Program
