LEAF BY LEAF

When autumn comes and leaves begin to fall, take a walk in the woods and have some leafy fun.

Keep a Record!

<tr>
<td>Weather</td>
<td></td>
<td>Magnifying glass</td>
</tr>
</tbody>
</table>

Use the spaces below to make leaf rubbings of two leaves, each from a different tree species. Put each leaf under this paper. Rub over it with a crayon or pencil.

LEAF 1

LEAF 2

TAKE A CLOSE LOOK

1. How are the two leaves the same?
2. How are the two leaves different?
3. Look at one leaf under a magnifying glass. What do you see that could help water and food move through the leaf?

(ANSWER ON THE BACK OF THIS PAPER)
